I'm a multidisciplinary Game Developer, 3D Artist and Software Engineer with a dedicated drive in building, creating and developing ideas to life. By utilizing my vast range of skills, I'm committed to creating and developing projects that reflect both technical expertise and creative vision.

PROFESSIONAL EXPERIENCE

GAME DEVELOPER INTERN TAKTYL STUDIOS

FEB 2026 - JUL 2026

- Developed four solo projects for the studio's new and updated game library using Phaser Typescript.
- Refactored and patched legacy games to support rebranding and release.
- Updated tutorial codebases and maintained templates for intern onboarding.

LEVEL DESIGNER & 3D ARTIST JENK GAMES (CAPSTONE)

NOV 2024 - JULY 2025

- Served as the primary Level Designer and 3D Artist for CIIT's 2x Inabel Award-winning and Best BSEMC Capstone Project for A.Y. 2024-2025, ST:AIN.
- Designed and developed game environments and 3D assets using Unity and Blender.

FREELANCE DIGITAL 3D ARTIST SELF-EMPLOYED

2018 - PRESENT

- Completed specialized 3D projects and commissions during senior high school, primarily for student clients, and personal projects.
- Created 3D assets for local clients, including modeling, layout design, character rigging, and animation.
- Served as Internal Communications Officer for the school's 3D organization, supporting coordination and creative direction.
